## **Paradise Unified School District** Anaphylaxis Treatment Annual Notification to Parents

August 2018

Dear Parents,

California Education Code 49414 authorizes school districts to provide epinephrine auto-injectors to trained personnel to use to provide emergency medical aid to persons suffering from an anaphylactic reaction.

Anaphylaxis is a rapid, severe allergic response triggered by insect stings, foods, medications, latex materials, exercise, or in rare cases by unknown causes. This is a life-threatening allergic condition, requiring immediate treatment. Administering epinephrine to students during a medical emergency may help to insure the student's health and safety at school. Therefore, the Paradise Unified School District has adopted a policy for standing orders to provide life-saving epinephrine to students who are in need of such treatment.

This policy states that a credentialed, licensed school nurse or trained, unlicensed school staff, under the direct or indirect supervision of the credentialed school nurse (or supervisor of health), may administer epinephrine in the form of an epinephrine auto-injector during a severe, life-threatening allergic reaction. The epinephrine auto-injector rapidly delivers a pre-measured, sterile, single dose of epinephrine by direct injection through the skin.

If you have any questions or concerns regarding this policy, please contact either of our district nurses listed below.

Sincerely,

Kelli Luevano  
District Nurse  
872-6470 ext. 285

Jeanine Roy  
District Nurse  
872-6470 ext. 288
