

Paradise eLearning Academy

Technology Use Agreement Equipment Check-Out Form

The Paradise eLearning Academy recognizes that access to appropriate equipment and a reliable Internet connection is vital to the success of our online school model. Therefore, Paradise eLearning Academy agrees to provide a laptop computer, printer, headset, webcam, mouse, and a stipend for an at home Internet connection to each family that requests it for their student.

In order to secure this equipment the parents and student must agree to the following conditions:

- This equipment remains the property of the Paradise Unified School District during the student's enrollment and must be returned in working order when the student either graduates or exits the program.
- It is the student and parent's responsibility to protect the equipment owned by the Paradise Unified School District while it is on loan to the family. Accidents, loss, or irreparable damage to the equipment while on loan is the responsibility of the student and his/her parents .
- The student and parents agree to contact the school Director immediately if there is an equipment malfunction, accident, damage, or loss of any kind. (Please do not attempt to fix the problem yourself).
- It is the responsibility of the student and parent(s) to secure an Internet connection for their home environment. While the school will make every effort to assist, *including providing a monthly ISP stipend*, the ultimate responsibility rests with the student and his/her parents. The school makes no express guarantees that access to classes will be 100% reliable if the problem originates with the Internet Service Provider and/or home connection. A broadband connection is highly recommended. An Internet connection and desktop computers are also available in the eLearning computer lab at Paradise High School.
